

Dear Sir and Madam

In an effort to adapt the educational programme of our students to the needs of the labour market, we would like to ask you to complete the following questionnaire which will allow us to assess our educational offer in terms of meeting the needs and expectations of Employers and to make any necessary adjustments to it in future years.

Please answer the following questions. We do not assess a person's individual predispositions, but the way in which they are prepared for a profession as a result of the educational programme. Please tick the correct answer.

1. The intern is prepared to work in the industry represented by your Institution/Company on a level.

very good	good	satisfactory	unsatisfactory
-----------	------	--------------	----------------

2. The intern's competences appear to you to be in line with the needs of the contemporary labour market (within the specialisation the student/intern is pursuing) on a level.

very good	good	satisfactory	unsatisfactory
-----------	------	--------------	----------------

3. When it comes to the programme developed by the Faculty of Polish and Classical Philology, presented to you with the Agreement, would you assess that it prepares the graduate to work in the industry represented by your Institution/Company on a..... level.

very good	good	satisfactory	unsatisfactory
-----------	------	--------------	----------------

4. What lacks in the knowledge and competences of the intern, resulting from gaps in the educational programme, have you noticed when assigning tasks to the intern at your Institution/Company? Please specify and indicate the necessary corrections leading to the improvement of the professional competences of our graduates in the labour market (within the sector represented by your Institution/Company).

Thank you for completing the questionnaire.
